

3 tips to keep your phone running great

3 PHONE TIPS

#1

Only Download Important Apps

Be careful about downloading apps. Check reviews, check the required permissions and stay away from large apps.

3 PHONE TIPS

#2

Clear App Cache

To speed things up, apps will save information on your phone without your knowledge. We call this a cache. For detailed steps, click a link below:

Android

iOS

3 PHONE TIPS

#3

Restart Every Few Days

It sounds obvious but restarting your phone every other day will allow apps to refresh and start in a clean "state", something app developers love.
